

Monthly HSE Performance Report

Site: Demo Industrial Facility (synthetic data) | Reporting month: 2026-06 | Prepared by: HSE Analyst | For: Site Manager

Indicator	YTD 2026	Target	Status
TRIR	1.55	<= 3.0	Green
LTIF	0.00	<= 3.0	Green
Severity rate (days lost x 1M / hours)	0.0	<= 15	Green
Near-miss ratio	82.2%	>= 80%	Green

Headline: Through 2026-06 the site recorded 4 recordable injuries and 0 lost time injuries over 516,000 man-hours (YTD TRIR 1.55, LTIF 0.00). 83 near misses were reported (82% of all events). **Focus area:** Warehouse carries the highest year-to-date recordable rate. **Requested actions:** the two actions below go to the Warehouse superintendent.

Action 1: Review shift staffing and overtime during high-risk maintenance windows.

SYNTHETIC DATA: all figures derive from a generated demonstration dataset, not real incident records. Man-hours are derived from 500 employees x 8-hour shifts x working days.
Formulas: LTIF = LTI x 1,000,000 / man-hours; TRIR = recordables x 200,000 / man-hours; severity rate = days lost x 1,000,000 / man-hours.
