

Monthly HSE Performance Report

Site: Demo Industrial Facility (synthetic data) | Reporting month: 2026-06 | Prepared by: HSE Analyst | For: Site Manager

Headline KPIs

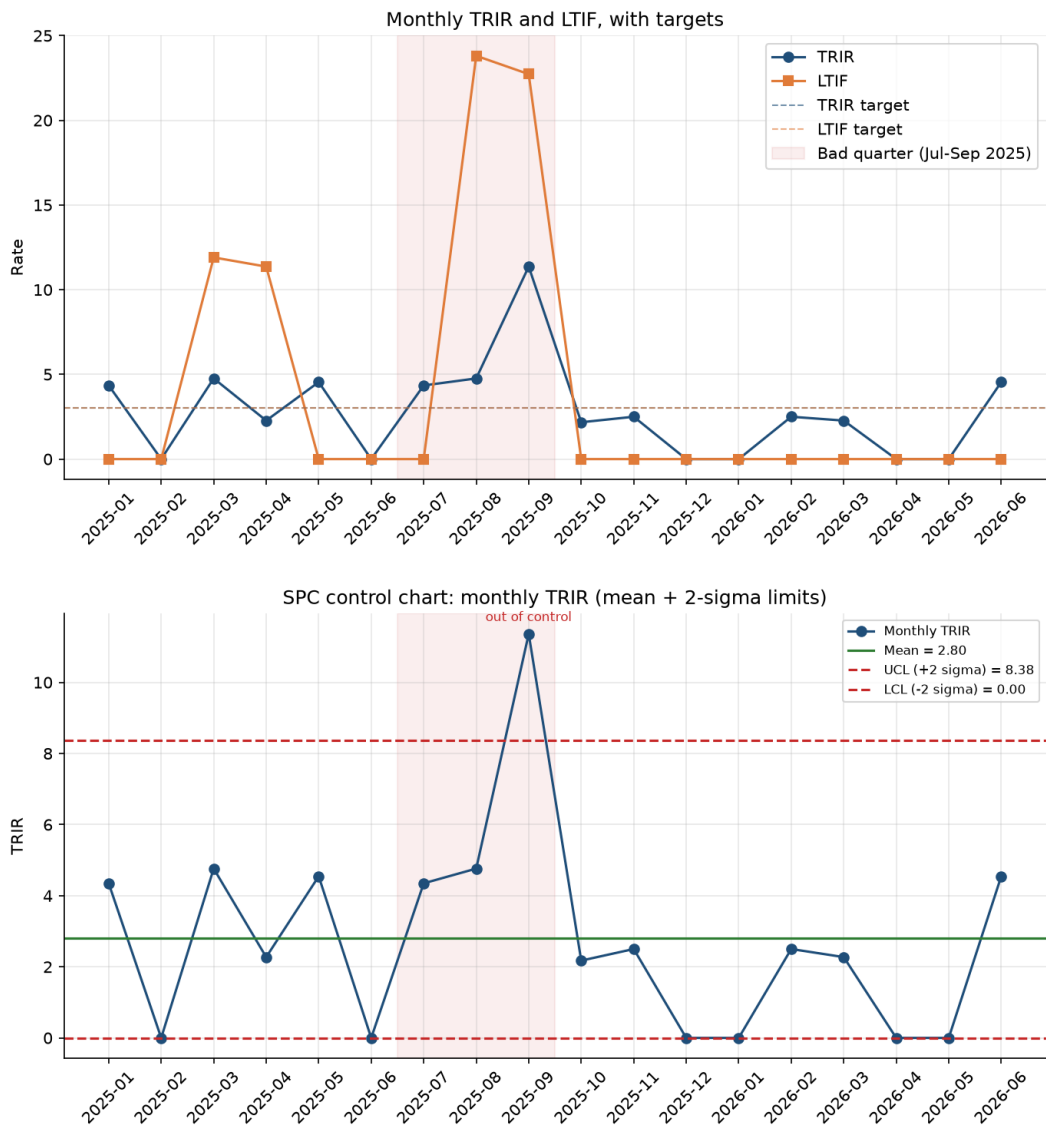

Indicator	YTD 2026	Target	Status
TRIR (recordables per 200,000 hours)	1.55	<= 3.0	Green
LTIF (lost time injuries per 1,000,000 hours)	0.00	<= 3.0	Green
Severity rate (days lost per 1,000,000 hours)	0.0	<= 15	Green
Near-miss ratio (% of all reported events)	82.2%	>= 80%	Green

Summary: focus area is Warehouse

Through 2026-06 the site recorded **4 recordable injuries** and **0 lost time injuries** over 516,000 man-hours, with 0 days lost. 83 near misses were reported, 82% of all events, and 271 safety inspections were completed. **Warehouse** carries the highest year-to-date recordable rate, so it is this month's focus area.

- Review shift staffing and overtime during high-risk maintenance windows.

Trend detail

Formulas: TRIR = recordables x 200,000 / man-hours; LTIF = lost time injuries x 1,000,000 / man-hours; severity rate = days lost x 1,000,000 / man-hours; near-miss ratio = near misses / all reported events. Man-hours are 500 employees x 8-hour shifts x working days per month.
